

Not Waterproof. Submersible.

Sealed silicone, end to end. No seams, no glued joints, no ingress path. Every Orenara system is rated IP68 across the strip, connectors and end caps — built for pool edges, water features and coastal exposure, and cut to your measured lengths before it leaves us.

IP68 END TO END — strip, connectors and end caps all rated
NO FIELD JOINS — factory-sealed runs, cut to length
2-YEAR SUBMERGED WARRANTY

Pool Perimeter - East Village, Level 21
